EDUCATION

Academic City University   *Jan. 2022 - Jun. 2025; Accra, Ghana*
B.Sc. Computer Science
Relevant Coursework: *Computer Systems Programming, Software Engineering, Project Management, Engineering and Risk Analysis, Web Technologies, Human Computer Interaction, Cloud Computing.*

SKILLS AND LANGUAGES

- **Technical Skills:**   *Next.js, Angular, React Native (Expo), Tailwind CSS, Typescript, MongoDB, Python, Git and GitHub, Figma*
- **Soft Skills:**   *Problem Solving, Written Communication, Verbal Communication, Leadership, Time Management*
- **Languages:**   *English, French (Elementary Proficiency), Twi, Fante*

WORK EXPERIENCE

SWE Intern - *Stanbic Bank Ghana*   *Jun. 2024 – Jul. 2024 | Accra, Ghana*
- Developed and maintained responsive web applications using Angular, HTML, CSS, JavaScript, and TypeScript.
- Worked closely with designers to translate mockups and prototypes into functional and visually appealing user interfaces.
- Began exploring backend development concepts using Spring Boot, gaining foundational knowledge in API creation and integration.
- Collaborated with backend teams to align frontend features with backend functionality, ensuring seamless integration and performance.

SWE Intern - *Stanbic Bank Ghana*   *Jun. 2023 – Jul. 2023 | Accra, Ghana*
Strategic Analysis, Design Collaboration and Full-Stack Involvement
- Led requirements gathering, conducted stakeholder interviews, and analyzed business processes for process improvement identification.
- Actively contributed to the design phase by collaborating with UI/UX designers to create intuitive and user-friendly interfaces.
- Assumed key responsibilities in the development phase, focusing on frontend coding using Angular, HTML, CSS, JavaScript, and Typescript.
- Engaged in a full-stack approach, ensuring seamless coordination between requirements, design, and development stages for optimal project outcomes.

PROJECTS

Frontend Developer (Freelance Project)
Vony Events and Rentals - Event & Décor Rental Website *(ongoing)*
- Currently developing a responsive event rental platform tailored for the Ghanaian market.
- Implementing features for booking inquiries, cart-based estimates, and PDF invoice generation with Cloudinary integration.
- Building the website with Next.js, Tailwind CSS, and MongoDB, ensuring modern design and smooth performance.
- Designing the UI to align with company branding and provide an intuitive customer experience.

Mobile Developer (Capstone Project – Academic City University)
Final Year Group Project,
GitHub | App Link
- Developed the mobile app using **React Native (Expo SDK 53), TypeScript, and Expo Router v5**, with dark/light mode.
- Integrated **Auth0 authentication** with JWT, SecureStore, and AsyncStorage for secure login and session handling.
- Connected to a **NestJS + Prisma backend** using Axios, React Query v5, and SWR for optimized data fetching.
- Added **real-time updates** via Socket.IO and enhanced UX with Reanimated and Expo Image.
- Collaborated in a **team of four (Frontend, Backend, Security, Mobile)** to ensure smooth feature integration.
